A Guide to Library Resources in Counselor Education

This is a selective guide to resources held in the University Libraries in support of counselor education. It serves as an introduction to the types and formats of resources available for this program. This guide is a selective bibliography of mostly recent resources and does not necessarily contain retrospective collections. It is by no means an exhaustive list. Please consult a librarian for further information. The materials listed may be located through the Libraries' homepage at <http://www.famu.edu/library>, which provides access to the [online catalog](#), the [A-Z list of databases](#), and the [electronic journal portal](#). The Libraries' homepage and online catalog provide information on the location and availability of books, serials, electronic resources, and other materials. You might select subject headings such as "student counselors," "educational counseling," "vocational guidance," or specific areas of education, e.g. "counseling in elementary education," etc. Most of the counselor education collection is housed in Coleman Library (main library). Respective of the subject matter, some counselor education resources may also be found in the branch libraries. For example, resources about counseling students with mental or physical disabilities may be found in the Science Research Center Library.
